C-Pen 800

C-Pen 800 is the most advanced version. It has 8 MB memory and, as well as the basic functions of reading, saving and transferring text, you also have a more comprehensive address book, calendar and translation facility. You can send messages via a mobile phone, either to a fax or as a SMS message.

800

Photographic memory and more. Now always at hand.

C-Pen 600

C-Pen 600, with 6 MB of memory, also includes one translation dictionary of your choice. You download extra dictionaries, for an additional charge.

600

C-Pen 200

C-Pen 200 is the base product in the new C-Pen generation. It has 2 MB of memory for scanning and storing text.

200

This is how you scan and save text!

1. Hold the C-Pen in your hand just like a highlighter and run it over the text.
2. The digital camera captures the text, converts it instantly to computer-readable text and saves it in the C-Pen's memory.
3. Transfer text instantly to your desktop or lap-top PC. Drag-and-drop files between your PC and C-Pen with a mouse-click. C-Pen appears as just another integrated drive to Windows.

C-Pen™

Read, scan, translate and remember!

Data gathering made simple. Anytime, anywhere.

Ever feel the need to capture text when you're out of the office? Well, now you can.

Just run C-Pen over the text and C-Pen will save it as a computer-readable text file. Back at the office, you can easily transfer the text files to your PC. Whether you're doing research, studying, working, or just looking for recipes, there's no need to take notes, tear out pages or make copies any more.

C-Pen saves the text you want. You save time.

Save text, save time!

Save and remember what you are reading while travelling.

Save and transfer information at work, like notes, reports, business information, etc.

Scan business cards into the built-in address book.

Transfer text directly to a document on your PC screen.

Collect information and transfer it to your PC.

Use C-Pen 600 and 800 as a portable dictionary.

Use it as portable memory by transferring files from your PC to take with you.

Save important notes when you are studying.

Copy useful home information such as recipes, shopping lists, timetables, wine tips, etc.

Use C-Pen 800 as a calendar.

And much, much more!

Convenient computing power
everywhere you go.

C Read – read and remember

C Read allows you to collect and save printed text, by using C-Pen as a highlighter to mark the text you want to save. The digital camera captures the text and saves it in C-Pen's memory as documents that can be transferred to your PC using infrared (IR) communication.

C Direct – read text into a PC document

C Direct enables you to copy text from a paper source via C-Pen directly to the cursor position on your PC screen. Your C-Pen acts as a smart hand-held scanner, transferring characters from a printed source directly into any Windows application.

C Dictionary – read and translate in a second

C-Pen 600 and 800 also includes one translation dictionary of your choice. You download complete dictionaries from either Oxford University Press or Norstedts from www.cpen.com to your PC. To use C-Pen as a translator is easy. Download the dictionary you need to C-Pen. Simply slide C-Pen over the word you don't understand.

C Address – your address book

C Address is an application within C-Pen for storing and looking up names, addresses, phone numbers and e-mail addresses. C Address is synchronized with Microsoft Outlook on your PC, it means wherever you are, you won't be out of touch.

C Write – edit or take notes

C Write allows you to write characters by using the C-Pen like an ordinary ballpoint pen. The C-Pen can follow its own movement over a surface and recognize the movement as a letter or numeral. This process can be very useful when searching for a contact in C Address or editing.

C Message

C Message lets you send not only short texts but also complete files with your mobilephone. Text can be sent either as SMS or fax.

C Calendar

C Calendar is a handy way to organize your life and appointments. You can view the whole month, a single week or take one day at a time and either read or write into your C-Pen.
